Senate Bill 29 (Substitute S-3)
Sponsor: Senator Jim Stamas
Committee: Appropriations

Date Completed: 2-24-21

CONTENT

The bill would amend the State School Aid Act to provide supplemental appropriations for fiscal year (FY) 2020-21. Specifically, the bill would add \$807.3 million in Federal Elementary and Secondary School Emergency Relief (ESSER) funds, \$125.2 million in Federal Governor's Emergency Education Relief (GEER) funds, and \$313.5 million in State School Aid Fund (SAF) money, for a gross supplementation appropriation of \$1,246.1 million.

The bill would distribute \$650.0 million of ESSER formula funds to districts (including public school academies) based on each district's share of Title I, Part A allocations as required under Federal law. The State of Michigan will receive a total of roughly \$1.66 billion in ESSER funds, of which a minimum of 90% (just under \$1.5 billion) is required to be distributed as formula grants; this bill would appropriate \$650.0 million of that minimum.

Roughly 10% of the ESSER funds (\$157.3 million) in Federal funds appropriated in the bill reflect the 'discretionary' portion of Federal ESSER money the State of Michigan could use if not allocated as formula grants. The bill would appropriate this \$157.3 million Federal ESSER funding along with \$10.2 million in GEER funds and \$115.5 million in SAF for distribution to districts where the district's per-pupil allocation from the \$650.0 million distribution is less than \$450. In those cases, the Federal and State funding would be used to ensure that the district received \$450 per pupil when combining ESSER formula funds with ESSER 'discretionary', GEER, and SAF money.

The bill would appropriate the full \$86.8 million in GEER funds earmarked for nonpublic schools, which would be distributed as required under Federal law. Other GEER funds appropriated under this bill include \$22.4 million for before- and after-school programs and \$5.9 million for parental expenses related to summer school programs.

In addition to the \$115.5 million SAF allocated for per-pupil equalization grants, the bill would appropriate another \$198.0 million SAF for the following programs: \$90.0 million for K-8 summer school programs; \$45.0 million for high school credit recovery programs; \$10.0 million for innovative summer school and credit recovery remediation services; \$21.3 million for payments to staff operating summer school programs; \$20.0 million for school mental health services; and, \$11.7 million for benchmark assessments. This would bring the total SAF appropriated in this bill to \$313.5 million.

Table 1 below itemizes the programs and their fund sources as found in the bill.
